About Strawberries

Strawberries are strawberries in the minds of most people so long as they look fresh and good. However, there is a difference in berries when it comes to the right kind to preserve. Some berries cook away almost to nothing and do not preserve whole. We can show you the difference in berries this week and explain to you the right kind to preserve, having made special arrangements for one thousand and fifty boxes each day to arrive Thursday, Friday and Saturday this week. Present indications are that this preserving berry will be higher, therefore, it will pay you to do your preserving at once. Place your order NOW and set aside Thursday, Friday and Saturday for preserving day. In ordering specify that you want this particular kind of berry, the "GANDY," which is the sweetest kind and requires less sugar and your preserves will be a success.

HIS SORE HANDS

Cracked Open, Bled, Burned and Ached for Over a Year-Could Not Sleep nor Even Dress Himself - Doctors Failed to Help Him.

MAN OF 70 OWES SKIN COMFORT TO CUTICURA

I could get nothing to do me any good till I got the Cuticura Soap and Cuticura Ointment. About a year ago my daughter got a cake of Cuticura Soap and one box of Cuticura Ointment and in one week from the time I began to use them my hands were all healed up and they have not been a mite sore since. I would not be without the Cuticura Remedies.

"They also cured a bad sore on the hand of one of my neighbor's children, and they think very highly of the Cuticura Remedies. John W. Hasty, So. Effingham, N. H., Mar. 5 and Apr. 11, '09."

For Baby's Skin

The purest, sweetest and most economical method of preserving, purifying and beautifying baby's delicate akin, scalp and hair is the constant use of Cuticura Soap, assisted, when necessary, by gentle applications of Cuticura Ointment. For rashes, itchings, inflammations and chafings of infants, children and adults, as well as for shaving, shampooing, sanative, antiseptic cleansing and all purposes of the toilet, bath and nursery Cuticura Soap and Ointment are unrivaled.

Cuticura Soap (25c.), Cuticura Ointment (50c.)

Cuticum Soap (25c.), Cuticum Ointment (50c.) and Cuticum Resolvent (50c.), (or in the form of Chocolate Coated Pills, 25c. per vial of 60) are sold throughout the world. Potter Drug & Chem. Corp. Sole Props., 135 Columbus Ave. Boston, Mass. 93-32-page Cuticum Book. mailed free, giving description and treatment of a hundred skin affections.

Saturday evening and another at the park, beginning at 8 oclock. Band concerts will be nightly features at the

park the rest of the season. It is the intention of the manage-ment of the park to make it so attractive that the people can't stay away. The figure eight, the merrygoround, the posts, the natatorium, the miniature rallway, the shooting gallery and all the other features will be in operation in addition to the band concert.

Ellis & Ferrar in a novelty singing

act, "The Clown's Dream of the Musical Doll," De Vore & McCallister in songa and their eastern hit, 'The Bootblack's Quarrel," and motion pictures will be featured in the vaudeville show, with two performances each evening.

THE BUSINESS SIDE OF A VOTE FOR MUNICIPAL WATERWORKS

"From figures we have at hand, taken rom the books of the water company and included in the report of Robert W. Hunt Co., we estimate the total cost of operating the waterworks is \$61,700 arbitrary charge for renewals, \$14,500 operating cost plus renewals, \$76,200; estimated income first year, \$150,000; leaving an estimated amount available first year for fixed charges, \$72,800. In view of this showing, we believe that a very large proportion of the total unt necessary to carry the payments of interest and principal and sinking fund, will be earned and can be made out of the operations of the plant itself when owned by the municipality."From the report of the second water committee, James R. Harper, chair-

VOTE FOR MUNICIPAL OWNERSHIP

AS THE ONLY SAFE SOLUTION.

"We find that the only sure and safe

solution for all time of the problem which confronts the city is the immedi-We are of the unanimous conviction that the people of this city should take immediate steps to consummate the purchase of the present water plant and that it should continue to conduct the plant under its municipal government, and we desire to especially emphasize the fact that at no time has the opporcunity been so propitious, and that at no time in the future would it likely be so propitious for the purchase and successful operation of this public utility which is of such vital concern to every citizen.

The city is amply able to purchase, and indeed as we see it, it is eminently incumbent upon it to take charge of the plant at once and at this time and thus avoid future complications."—From the James G. McNary, chairman.

MINING AND OIL NEWS.

INTEREST REVIVES HAIR REMOVERS IN TOYAH OIL

An Extensive Operator Expresses Faith-Hammond Well Supplies Oil Daily.

Speculation as to the oil field, says he Carlsbad Current has again become active and those interested in the development of the field are manifesting

William Crump, of Geary, W. Va., who has been organizing an oil company, composed of local men and inorporated for \$500,000 has 15 oil claims, consisting of 160 acres each, and is beginning an active campaign in the line of oil development. The officers of the company are: B. A. Ny-meyer, president; William Krump, secretary, and together with C. R. Bryce constitute the board of directors of the ompany.

Its holdings are 20 miles northwest of Carlsbad, in what is supposed to be the heart of the oil field, and it is in this section of the field that the indications of the oil are the strongest. In not less than a dozen wells which have been sunk in that immediate viis so strong that in many instances the water is unfit for use until the oil that has accumulated on the surface of the water, has been removed and a fresh

supply of water drawn.

This indication, which oil men say is one of the most valuable known, is supplemented with a geological forma-tion which has repeatedly been report-ed as being practically perfect for an oll bed. While the scope of the field is purely speculative, the indications have been found in properties. been found in unmistakable quantities in a belt varying from 10 to 20 miles in width and running in a southwesterly direction, presumably connected with the oil field known as the Toyah Creek Oil fields across the state line in Texas.

Faith in Toyah Field.

C. R. Rice, who lives at the Sheldon.
In El Paso, expresses the utmost faith
in the future of the Toyah field as a

oll producer. He is an oil expert of reputation and heavily interested in the oil wells of California. He stated that if the Toyah basin turned out a producing proposi-tion on a commercial scale, as he believed it would that it would undoubtedly be one of the most extensive oil fields on the continent and in the world.

Work Resumed at Dayton Field. Although drilling was discontinued, says the Pecos Valley Echo, on the new oil well of the Giant Oil and Gas company, near Dayton, N. M., and it was reported that a depth of 1000 feet had been reached without any satisfactory strike, the drillers are back now and are going on down. A strata of oil sand is usually struck in that locality between 900 and 1000 feet, and it is the general belief that a better stratum would be struck if a well were sunk deeper.

The Hammond well is still furnishing its 24 barrels of oll a day.

ORIENT ROAD TAPS RICH MINE FIELDS Lluvia de Oro Company Has

Unique Property-Other Undeveloped Fields.

F. J. Bernhardt, a mining man, who has during the past two years prospected over a wide territory on both sides of the Sierra Madre range, in the Southwestern part of Chihushua, and the eastern portions of Sinaloa and Sonora, is in El Paso.

"The Kansas City, Mexico and Orient," says Mr. Bernhardt, "from its present terminus at Sanchez, state of Chihuahua, on west to Fuerte, Sinaloa, will when completed open up a wonderfully rich gold and copper country.

Mine Almost Innecessible. "The richest and most unique gold Sinalos. miles distant, is only 1500 feet above the sea. The Orient railway will pass within 10 or 12 miles of the mine. At presfreight and heavy machinery is hauled by wagons from Fuerte, east through Chaix to Mesa Colorado, and from there floated in steel barges propelled by gasoline engines, 25 miles up the Fuerte river, and thence packed up the high nountains to the mine a few miles dis-

"This is one of the rich mines which the Tarahumari indians knew of and during a drunken feast, a Mexican peon overheard them describing it. He gave the secret to Don Bernardo Garcia, who found both native silver and free gold in a ratio of 10 ounces silver to one ounce of gold per ton. In 1903 Garcia, who had only developed it by shallow workings, none over 20 feet deep, sold it for \$2,000,000 to the Liuvia de Oro Gold Mining company, controled by Campbell and Scullen of St. Louis, Mo., and B. F. Yokum, the railroad magnate of New York, George A. Schroeter of Denver is consulting engineer. Will Instal Machinery.

"A big mill has been erected and a 400 horse-power hydro-electric plant is being installed.

"The unique feature of the mine is that the ore body is not a vein, nor a contact lose, but is quartz replacements or lenticular ore bodies in the lime stone. The main ore body is 60 feet wide, of exceeding richness in gold. North of this is another ore body 50 feet wide nearly as rich as the former. Between this mine and Chaix I know of other huge quartz outcrops in lime, rich in gold, that have not been de nounced, which I believe as good as the Liuvia de Oro. Owing to its present inaccessibility the prospector without money can do nothing. The mining laws of Mexico are not favorable to the poor prospector like those of the United States, although they are good for the

Other Mining Properties "In the valley of the Fuerte rive there is an extensive gold placer field covering many square miles up on the mesas where the Quenner dry machine could be used to advantage, which contain millions of dollars worth Around Chaix are enormous deposits of copper ores that will become very profitable when the Orient railroad opens up a means of transportation to market. This copper belt I

SUPERFLUOUS

The New York World, in Commenting Upon Unscrupulous Manufacturers of Them, Says:

"The fakes put on the market in the last 10 years have numbered their victims by the hundreds of thousands. Empty promises have been made by scores of promoters in the wild scramble to get the money. The marvel is that woman has not become so thoroughly disgusted as to reject all treatments for good."

oughly disgusted as to reject all treatments for good.

"But her hope for a remedy was not in vain, and the credit of coming to her assistance, fell to an American. Only a few years ago the now known De Miracle treatment was brought forth and it proved to be a revelation in modern science. A representative of the New York World investigated the discovery and the methods by the discovery and the methods by which it was introduced to the public. He found exhaustive tests have it to be the long desired practical, expeditious and safe way in which to destroy the growth of hair. Those who put it before the public knew the fallacy and dishonesty of publishing extravagant claims. They did not resort travagant claims. They did not restored any catch schemes, such as making a prospective customer a special offer of personal interest. They started in to win the confidence of those interested, and in this way they have been eminently successful. have been eminently successful.

What is more to the point, it has been indorsed by prominent physicians, representative medical journals and leading magazines, devoted to woman's cause. There is too much at stake to ing magazines, devoted to woman's cause. There is too much at stake to risk such indorsements if they are not true to the letter. Only the result of repeated chemical experiments and a thorough knowledge of the origin of all hair growth could stand against the investigation of such authorities." The De Miracle Chemical company is open and above board in every detail. The indorsements are not just claimed. A little probing on the part of the Paper disclosed the fact that they are published and sent broadcast with the identity and address of the writer or publication added. This is the stumbling block of all so called remedies. A reputable member of the medical profession or a publication in good standing could never afford to be identified with anything that savors of a fake, and the voluntary praise given through these channels is not to be bought with money. It is given on the strength of conviction.

When so great and reliable a publication as the New York Western publish.

When so great and reliable a publi-cation as the New York World publish-es such facts as the above in reference to hair removers it should be sufficient to convince any one that De Miracle is the only absolutely safe, reliable and trustworthy hair remover ever offered the public. De Miracle is sold by Kelly

& Pollard.

Address De Miracle Chemical Co., Dept. 185, Park Ave. and 129th St., New York. Write for it today. & Pollard.

traced northward along the limestone belt along the western foothills of the Sierra Madre far into Sonora. In fact, it is claimed that the copper belt continues south from Arizona down into

Rich Copper District. "I also visited El Picacho Copper mines in the Ures district. Sonora, five miles from Soyopa, Son. The veln runs northeast and southwest, outcropping boldly with immense iron capping for over a mile. The lode has an average width of 14 feet vein fillings in red oxide of copper, malachite, azurite, iron, silica and calespar. A tunnel 200 feet long shows six feet of high grade copper. A general average of ore from the 40 feet fevel to the top of the mine. assayed \$8.26 in gold and 22.4 percent

copper. I also have found," said Bernhardt, "a large vein of cynnabar ore in southwestern Chihuahua, traceable a long distance through a limestone country. The Orient road will run within a short distance of it."

WATER POWER FOR SANTA LIRRADA MINES

Sufficient Supply for Entire District-El Pasoans'

Properties Rich.

Jack R. Darrach, of El Paso, and F. M. Gallaher, of California, have returned from Ocampo, state of Chihua-hua, Mex., and while there took a workmine is the famous Lluvia de Oro in the ing bond and lease on the Santa Librada extreme western part of Chihushua just group of gold mines in that famous over the eastern line of the state of gold camp. They have purchased sup-The mine is 4200 feet above piles and forwarded them from Chihua sea level while the Fuerte river, five hus to the mines, and have girendy commenced working. Leece Kermode is in charge of the property. There is about 800 feet of work already done ent it is almost inaccessible and all the on the property, showing good milling ore in various places. The vein is one of the largest quartz veins in that district. There is about six feet of ore in the openings, running about \$20 in gold and silver. Mine in Center of District.

The Santa Librado is in the heart of the district and close to the Cole-Ryan properties, which have the record of having produced \$250,006. The Cole-Ryan holdings, says Mr. Darrach, are being opened up very fast, and being explored very thoroughly under the superintendency of R. Linton. These properties were recently taken over by the Cole-Ryan people from the Greene-Gold-Silver company. The road from Ocampo to the sawmills has been repaired and as soon as the rainy season is over, will extend it to Temosichic. The company proposes installing a 300 horse power steam power plant to ganerate and transmit electrical power a distance of 10 miles to the mine, but which will eventually be supplanted by Shipping Gold Bars.

I. Cienigilla, Dick O'Leary and Mc-Ewen are makking regular shipments of gold bars from their Clenigilla mine, beyond Morris, and west of Ocampo. They are running a five-stamp mill on The mine is improving every foot of depth.

South of Ocampo, in the old camp of Uruachic, the Rascon Bros. are running their 10 stamp mill, and making regular bullion shipments. J. J. Waterson's mill and mine are

at present lying idle, on account of the suffocating air and he is busy installing a ventilation system. Billy Brooks is making an examination of the property, and waiting the arrival of Raddington Mines in Operation

At the mines of M. Baddington, of El Paso, in Uruachic, work is being car-ried on under the direction of his son. N. C. Baddington Plan for Water Power.

Darrach and Galliber have completed the survey of their water power, and claim to have a sufficient power to supply the camps of Ocampo, Uruachic, Pinos Altos and Couchena the entire year, with a capacity of from 2500 to 5000 horse power. The plant will be hydro-electric.

Mines Have Record. The Qualey Bros. have taken ove the Siqueiras mines in the heart of the

Ocampo district, which addaln the famous Santa Juliano with a record of a \$50,000,000 production, and are push a \$50,000,000 production, and are pushing development, as they did in their Yoquivo mine; which are constant shippers of rich ore. They are installing power plant and mills.

Orient Rushing Work. terminus of the Orient railway, states that steel has been laid on the completed grade several kilometer. grade several kilometers beyond. ratiroad company is busy bringing in ties and rails. All the available timber and lumber in the country is being cut and marketed

COFFEE DEALER TO NEW YORK. Charles S. Nasets, president of the Western Coffee company, is on his way to New York city on business.

3.3.3. BEST SPRING TONIC

Every one should take a tonic in the Spring; our systems requir The change in the seasons produces a like change in our bodies, and more is required of the blood, from which source we receive physical nourishment and strength, at this particular time than at any other.

Almost every one feels bad in the Spring. Some have no particular sickness, but are debilitated, run-down and weak, and their systems are in a general state of disorder. This deranged condition of the health is due to weak, anaemic blood; the circulation is infected with impurities which have diminished its natural nourishing powers, and the body is suffering from deficient blood nutriment. The refuse and impurities which naturally accumulate in our systems are not properly expelled in Winter, because those members whose duty it is to perform this work of drainage do not receive sufficient stimulation from outdoor exercise, and therefore grow dull and sluggish in their action; nor is the skin as active in eliminating waste maters in cold weather because the pores are not so open as in warm seasons.

These Winter accumulations pollute the blood and largely destroy its nutritive qualities, and when Spring comes, and everything takes on new life, and we change our method of living, the circulation is so weakened that it is unable to supply the increased demands of the system. Then we suffer from weakness, nervousness, loss of appetite, lassitude, etc. There is a constant worn-out feeling, sleep is not refreshing, and we do not feel able to perform the ordinary duties of daily life. This disordered condition demands the use of a tonic, and it should be one which has the additional qualities of a first class blood purifier, for to restore health and strength the blood must be pure.

The healthful botanical ingredients of which S. S. S. is composed. and the method of combining and preparing them so that they build up and strengthen every portion of the body, make it the best of all Spring tonics. S. S. S. is Nature's medicine, free from strong mineral mixtures and made entirely of the healing, cleansing juices and extracts of roots, herbs and barks; a safe and pleasant tonic for persons of any age. S. S. S. is not only the best Spring tonic, but its ability and worth

as a genuine blood purifier is universally recognized. It builds up the depleted system in the true way, by purifying the blood and supplying an increased amount of nourishment to every portion of the body. S. S. S. removes all accumulations from the circulation, enriches and purifies the blood and overcomes the unpleasant physical ailments that always come with Spring. It rids the body of that tired feeling, improves the appetite, reinvigorates every fibre and tissue of the body, and imparts healthful energy to all who are run-down. The body cannot be strong and well if the blood is weak or impure, and no tonic should be used which does

impure, and as a result my system

became very much run down and debilitated. I lost twenty or more pounds in weight, had no appetite and was in bad shape. Seeing S. S. S. advertised I began its use, and am well pleased with the results after using it for some little while. From 139 pounds to 165 is pretty good evidence of merit on the part of S. S. S., and as to my appetite, it is superb. system and general health have been wonderfully built up, and I do not hesitate to give S. S. S. the credit for 50 Second St., Warren, O.

PRETTY GOOD EVIDENCE.

I have used S.S.S. and found it to

e an excellent blood purifier and

tonic. My blood was weak and

not thoroughly cleanse the circulation. If you select S. S. S. as your tonic this Spring you will experience better results and more vigorous health than ever before, because it will make your blood "just right." Insist on getting S. S. S., there is no other "just as good.

THE SWIFT SPECIFIC CO., ATLANTA, GA.
